New Delhi, Delhi - 110034, India

ABOUT

A passionate and solution-driven engineering graduate with a B.Tech in Computer Science and Engineering, committed to leveraging technical skills and innovative thinking to solve real-world problems. Strong foundation in engineering principles, programming and data analysis, with experience in academic projects. Skilled in Python, Frontend (HTML, CSS, JavaScript, React and Node.js), Backend (Django), Java, Full Stack, C/C++, DSA and DevOps tools/languages and enthusiastic about learning new technologies. Recognized for a collaborative attitude, attention to details and a proactive approach to challenges. Seeking a role where I can grow professionally while contributing to impactful projects.

EDUCATION

- KIIT University** 2023 - 2027
B. Tech(CSE) Bhubaneswar, India
◦ GPA: 8.40/10.00
- Aadharshila Vidyapeeth** 2022
Senior Secondary(XII, CBSE) Delhi, India
◦ Grade: 85
- Aadharshila Vidyapeeth** 2020
Secondary(X, CBSE) Delhi, India
◦ Grade:90

PROJECTS

- Project A: [Gemini-Inspired AI Chat Interface using React]** 2025
Tools: [React, HTML, CSS, JavaScript, Vite/npm] 
 - Designed and developed a **Google Gemini-inspired AI chatbot** using React with a scalable, modular architecture.
 - Implemented **React Hooks** to manage global state and optimize component reusability.
 - Enhanced performance and UX through **efficient rendering, clean UI design, and responsive layout principles**.
 - Followed **modern frontend best practices**, improving maintainability and scalability of the codebase.
- Project B: [E-Commerce Product Search & UI Interface]** 2025
Tools: [HTML, CSS, JavaScript, VS Code] 
 - Built a user-focused front-end shopping interface emphasizing usability, responsiveness, and clean UI design principles. .
 - Implemented clean and semantic HTML with optimized CSS layouts, ensuring accessibility and consistent UI behavior across devices.
 - Added dynamic client-side interactions using JavaScript, enabling smooth user input handling and real-time UI responsiveness.
 - Followed industry best practices in front-end development by separating structure, styling, and behavior for maintainable and scalable code.

SKILLS

- **Programming Languages:** Java, Python, C/C++
- **Academics:** OOPS, DBMS, OS, Machine Learning, DSA
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Node.js, DevOps, Django
- **Database:** MySQL
- **Other Tools & Technologies:** VS Code, GitHub, MS Excel

CERTIFICATIONS

- **Ducat IT Training Centre:- C, C++, DSA** 2024
- **Ducat IT Training Centre:- Python Full Stack DevOps** 2025
- **Ministry of Road Transport and Highways : Road Safety Hackathon** 2025
- **Microsoft:- Introduction to AI** 2025
- **Google:- Data Analytics** 2025
- **Forage(AWS):- Solutions Architecture Job Simulation** 2026
- **KIIT:- Smart India Hackathon** 2025

ADDITIONAL INFORMATION

Languages: English (Professional Working), Hindi(Native/Bilingual)

Interests: Exploring Emerging Technologies, Continuous Learning, Developing Web Solutions, Artificial Intelligence
